|---------------------|---|--------------|
| Total no of defects | 4 | |
| Blocker | 0 | |
| Critical | 4 | |
| Major | 0 | |
| Minor | 0 | |

This table lists the no. of defects based on their types

| Defect status | Build result |
|---------------------|--------------|
| Total no of defects | 4 |
| UI/UX defects | 0 |
| Functional defects | 4 |
| Performance defects | 0 |

Suggestions

- Search functionality should be optimized so that it will search based on category.
- The error message on the login page should be based on the error type it is displaying same error message for types of error.
- We can add a filter so user can filter his search results
- The payment method is not showing for various products e.g Gift certificates etc., this should be visible
